

DR. SHADE™/GLACIER GLOVE®'S 009GY 50+ UPF sun glove and why it is superior to the competition's product.

Kevlar reinforced seams.
Each seam includes a KEVLAR thread to add strength and prevent tearing - creating a durable lightweight sun glove.

Light weight LYCRA that is extremely fast drying for comfort. LYCRA material also has great elasticity.

Extended cuffs to provide protection above the wrist and eliminate the gap between the shirt sleeve and glove.
